AWDHLInterface \$3,500

AdvancedWare is Pleased to Present AWDHLInterface - \$3,500

The AWDHLInterface product automatically loads from your Avanté, DataFlo or ManFact system all the information required by DHL EasyShip for a shipment. Once you complete the shipment in the DHL EasyShip system, all the information such as Shipment Cost, Total Weight, Number of Packages, and Tracking Number(s) are then automatically loaded into your Avanté, DataFlo or ManFact system. AWDHLInterface streamlines the shipment process and eliminates errors caused by having to maintain redundant customer address information.

Below you can see the flow of the AWDHLInterface process. In one simple step, the information is automatically loaded into the DHL EasyShip system and is ready to be processed. Then, with a click of the mouse the information is automatically loaded from DHL EasyShip into your Avanté, DataFlo or ManFact system.
