

Delivering Exceptional Services & Software Every Time

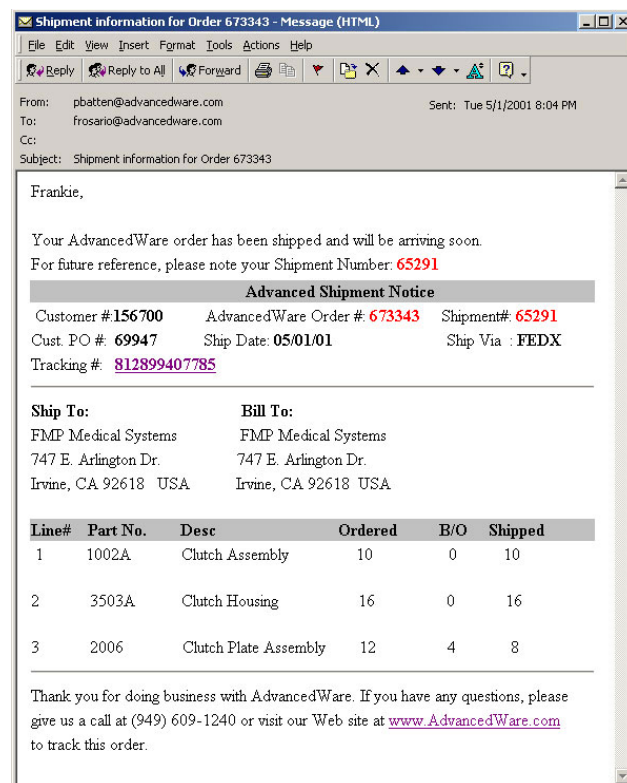

## AdvancedWare is Pleased to Present AWMail - \$500

AWMail lets you automatically trigger an email to any email address based upon an event occurring in your Avanté, DataFlo, ManFact or MANAGE 2000 system. Features of AWMail include attachments, html or text formats, carbon copies and blind carbon copies. AWMail has the flexibility to work with any email system such as Microsoft Exchange, IBM Lotus Notes, etc.

### Here are some examples of AWMail triggers:

1. Automatically email shipment details to customers whenever products are shipped to them and even include a hyperlink to the carriers web site for the tracking number.
2. Automatically email the credit manager whenever a large order is put on hold and even include the customer's previous order information.
3. Automatically email the CEO & VP of Sales whenever an order is booked that is over \$50,000 and even include the name of the sales person who booked the order.
4. Automatically email collection letters to customers that are overdue and even vary the text of the message based upon how much they are overdue.

**Our Turnkey Approach:** For the price of \$500 AWMail includes the combination of products and services needed for your company to be up and running live. In fact, included in this price is the delivery of any AWMail trigger of your choice such as the samples mentioned above.

**The Bottom Line:** With AWMail you will have the ability to setup an unlimited number of AWMail triggers which can be automatically generated from your Avanté, DataFlo, ManFact or MANAGE 2000 system.
