

Delivering Exceptional Services & Software Every Time

## AdvancedWare is Pleased to Present AWmInvCount - \$6,500

With AWmInvCount you can do all of your Physical Inventory and/or Cycle Count transactions electronically without the need for paper tags. Using a Wireless Mobile Device AWmInvCount lets you scan (or enter) all the information and your Avanté, DataFlo, or ManFact system is automatically updated in Real-Time. Using a graphical interface on the Wireless Device, your Physical Inventory and Cycle Count transactions are handled through these simple steps:

- **Physical Inventory:** Scan or enter the Part Number; Scan or enter the Bin; Tap in the quantity you counted and tap on the Accept button. The count is automatically recorded into your Avanté, DataFlo, or ManFact system and you are ready to scan the next Part Number and Bin to be counted.
- **Cycle Count:** Each user involved in the Cycle Count will be presented with a screen showing the Parts that they need to count. You simply tap in the quantities counted and tap on the Accept button. The counts are automatically recorded into your Avanté, DataFlo, or ManFact system.

### Physical Inventory – Tap in the Count

### Cycle Count – Tap in each Count

**Our Turnkey Approach:** For the price of \$6,500 AWmInvCount lets your company handle Physical Inventory and/or Cycle Counts in the Avanté, DataFlo, or ManFact system in Real-Time using a Wireless Mobile Device. And best of all, AWmInvCount works with any release of Avanté, DataFlo, or ManFact even if you have customization.
