

Delivering Exceptional Services & Software Every Time

AdvancedWare is Pleased to Present AWmShipping - \$6,500

AWmShipping enables your company to use a Wireless Mobile Device to efficiently pick the products for shipment to your customers. And best of all, the transactions in your Avanté, DataFlo, or ManFact system are performed by AWmShipping automatically and in Real-Time. Using a graphical interface on the Wireless Device, picking the products to be shipped is handled through these simple steps:

- The Wireless Device will display a list of all open shipments and you can select one by tapping on it.
- In Real-Time AWmShipping will display from your Avanté, DataFlo, or ManFact system the details of what needs to be picked. Note: The display will also show inventory quantities and bin locations they reside in.
- Simply enter (or scan) the actual quantities picked, tap the Accept button, and AWmShipping will automatically update your Avanté, DataFlo, or ManFact system and print out the final document to go with the shipment.
