

Delivering Exceptional Services & Software Every Time

AWmStockQuery&Move
\$6,500

AdvancedWare is Pleased to Present AWmStockQuery&Move - \$6,500

With AWmStockQuery&Move your users will have the ability to quickly and accurately perform Stock Movements by simply scanning the information on a Wireless Mobile Device. Also, users can scan an item and easily view critical information on the product including On-Hand & Available Quantities for one or more Inventory Locations. The ability to see details for Bins, Lots and Serial Numbers is built in as well. You can even click on the Search Button to easily find any part you are interested in.

AWmStockQuery&Move is fully integrated with the Avanté, DataFlo, and ManFact systems and all information & transactions happen in Real-Time. The simple graphical interface in AWmStockQuery&Move is both fast and easy. You are going to be amazed at the accuracy and efficiency you will achieve with AWmStockQuery&Move!

Performing Stock Movement

Viewing Information on Part 5012

Our Turnkey Approach: For the price of \$6,500 AWmStockQuery&Move allows your company to perform the Stock Movement and Query functions in the Avanté, DataFlo, or ManFact system in Real-Time using a Wireless Mobile Device. And best of all, AWmStockQuery&Move works with your release of Avanté, DataFlo, or ManFact even if you have customization.
