

Delivering Exceptional Services & Software Every Time

AWmWOMaterial&Labor
\$6,500

AdvancedWare is Pleased to Present AWmWOMaterial&Labor - \$6,500

AWmWOMaterial&Labor provides an incredibly efficient way of handling Work Order Material Movements and Labor Tracking for your Avanté, DataFlo, MANAGE 2000, or ManFact system. With AWmWOMaterial&Labor your company will be able to use a Wireless Mobile Device to handle these transactions and your Avanté, DataFlo, MANAGE 2000, or ManFact system will automatically be updated in Real-Time.

AWmWOMaterial&Labor provides a simple graphical interface on the Wireless Device, which enables your employees to scan or enter any information. With AWmWOMaterial&Labor your information accuracy is much higher, and since all transactions are recorded in Real-Time the system always reflects the true current status. Imagine the efficiencies gained in the Labor Tracking area by no longer having to fill out and manually key in paper time cards. Also, think about how streamlined your WO Material Movements will be when you no longer have to manually track each movement and then key it back into the system.

Initially Clocking In

Performing Movement & Labor Transaction

Our Turnkey Approach: For the price of \$6,500 AWmWOMaterial&Labor allows your company to perform the WO Material Movement and Labor Tracking functions in the Avanté, DataFlo, MANAGE 2000, or ManFact system in Real-Time using a Wireless Mobile Device. And best of all, AWmWOMaterial&Labor works with any release of Avanté, DataFlo, MANAGE 2000, or ManFact even if you have customization.
