

AdvancedWare is Pleased to Present AWXML for Avanté - \$7,500

With AWXML, your company will be able to automatically exchange XML transactions with your customers, which are fully integrated with your Avanté business system. Processing transactions via XML is a very efficient way of doing business. And with AWXML, it's easy because the integration with Avanté is built in. AWXML handles a variety of transactions including incoming Orders from your Customers, Distributors, Corporate Web sites, and even Web Marketplaces. And because AWXML does **Real-Time** validations, you can rest assured that only accurate Orders will be updated into your Avanté system.

Key Features of AWXML:

1. All XML transactions are automatically integrated into your Avanté system so no re-keying or manual processing is required.
2. Incoming XML Orders are processed in Real-Time and XML Order Confirmations are automatically transmitted to your Customer in Real-Time.
3. With AWXML, the Orders processed will execute all of your business rules (file-time logic, etc.) that you have in place for Avanté. This will ensure that all orders processed into your system are fully validated.
4. AWXML logs all transactions and the Real-Time validation routines will even automatically email you if any problems with the transaction occur, such as the Customer transmitting an invalid Part Number.
5. AWXML works with any release of Avanté.

XML Transaction Flow - Incoming Customer Order

Our Turnkey Approach: For the price of \$7,500, AWXML is the perfect add-on product to AdvancedWare's AWWebStore solution. AWXML includes the combination of products and services needed for your company to be up and running. We include the installation and setup of AWXML on your server and full integration to your release of Avanté, even if you have customization.

The Bottom Line: With AWXML, you and your key customers will be sending and receiving XML transactions that are fully integrated with your Avanté system.

To arrange for a demonstration or to order your copy of AWXML please give us a call at (949) 609-1240
