

AdvancedWare is Pleased to Present AWValidateAddress for DataFlo - \$3,500

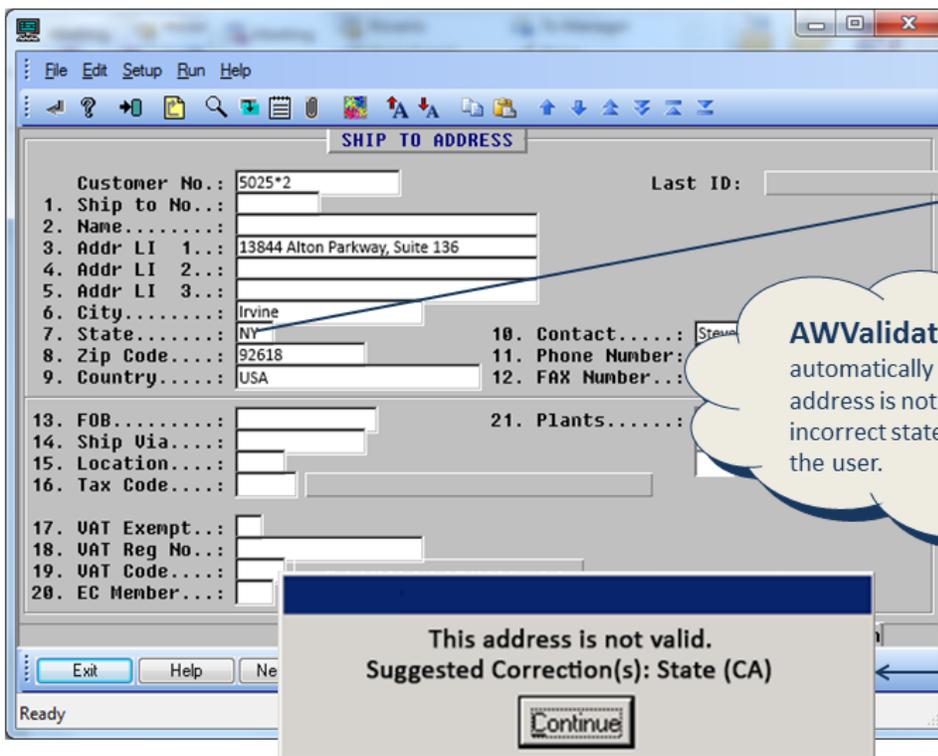

The AWValidateAddress solution will make sure you always enter a valid customer address into your DataFlo system.

Save Money – No more costly shipments being returned and having to be re-shipped due to invalid addresses.

Save Time – AWValidateAddress is fully automated with DataFlo and works in Real-Time. Your users don't need to change anything because "behind the scenes" AWValidateAddress will automatically validate the Customer Addresses entered into DataFlo. If there is any problem with the address entered the system will not only let the user know but it will display in the DataFlo screen the recommended changes to the address.

Increase Customer Service – With AWValidateAddress your Customer Service Level will increase because you will no longer have shipments returned causing delays to your customers. In today's world, customers expect technology like this to get it right the 1st time!

AWValidateAddress works for addresses in the United States and Canada and there is nothing you have to load or maintain because it uses Web Services Technology.

Our Turnkey Approach: For the price of \$3,500, AWValidateAddress includes everything needed for your company to be up and running live. We include the installation and setup of AWValidateAddress on your system and AWValidateAddress works with any release of DataFlo, even if you have customization.

The Bottom Line: With AWValidateAddress, your DataFlo Customer Addresses will be right the first time and every time.

To arrange for a demonstration or to order your copy of AWValidateAddress give us a call at (949) 609-1240
