

AdvancedWare is Pleased to Present AWWebConfig for Epicor Kinetic - \$16,500

AWWebConfig will enable your company's Web site to process Real-Time Orders for Configured Products via the Web. With AWWebConfig your Customers, Distributors and Consumers will be purchasing your Configured Products on-line. In all cases, the process of configuring a product is Real-Time integrated with the Epicor Kinetic Configurator. When users (via the Web) select a Configured Product (i.e., setup in Epicor Kinetic as a product that goes through the configurator) then the page displayed in the Storefront gets its page information (options, configuration rules, pricing, etc) all in Real-Time from the Epicor Kinetic configurator.

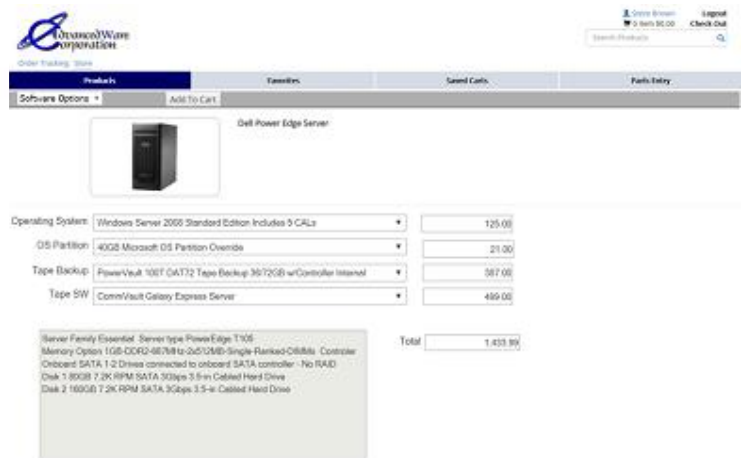

Example of user Configuring a product on page 1 of the configuration process. Note: the page 1 display can be re-named like in this example to "Hardware Options". Everything on the page below is integrated with the Epicor Kinetic Configurator in Real-Time. For instance, if the user selects an option that changes the price or "turns on" or "turns off" other options, etc. then the Web Page will automatically do the same thing.

Page 2 of the Configuration (re-named to "Software Options") is shown below. Once the Configuration is complete the user can add the Configured product to their Cart to purchase it. Note: The Cart view itself has the ability to click a Configured item to make any configuration changes.

The screenshot shows the 'Hardware Options' page for a Dell Power Edge Server. The server family is 'Essential' and the server type is 'PowerEdge T105', priced at \$200.99. The configuration includes:

Component	Price
Memory: 1GB DDR2-667MHz 2x512MB Single-Ranked DIMMs	\$11.00
Controller: Onboard SATA 1-2 Drives connected to onboard SATA controller - No RAID	\$2.00
Disk 1: 800GB 7.2K RPM SATA 3Gbps 3.5-in Cabled Hard Drive	\$0.00
Disk 2: 160GB 7.2K RPM SATA 3Gbps 3.5-in Cabled Hard Drive	\$20.00
Disk 3: NA	\$0.00
Disk 4: NA	\$0.00
Total	\$41.99

The screenshot shows the 'Software Options' page for a Dell Power Edge Server. The configuration includes:

Component	Price
Operating System: Windows Server 2008 Standard Edition Includes 5 CALs	\$125.00
OS Partition: 40GB Microsoft OS Partition Overwrite	\$1.00
Tape Backup: PowerVault 100T DAT12 Tape Backup 30TB2GB w/Controller Internal	\$87.00
