AdvancedWare is Pleased to Present AWSalesforceInterface for ManFact - $25,000
AWSalesforceInterface is the perfect solution for ManFact users who are running Salesforce or are planning to run Salesforce. Salesforce is a great product but without the key integration with ManFact you are getting less than half the benefit. AWSalesforceInterface includes initial loads of historical information as well as automatic updates for new/updated information.

**ManFact ERP System
AWSalesforceInterface** → **salesforce** ←

AWSalesforceInterface integration from ManFact to Salesforce:

- ManFact Customer Master information integrated with Salesforce Accounts

- ManFact Customer Contacts information integrated with Salesforce Contacts

- ManFact Parts Master information integrated with Salesforce Products

- ManFact Quotes (Header & Detail) information integrated with Salesforce Quotes

- ManFact Sales Orders (Header & Detail) information integrated with Salesforce Sales Orders
