

Delivering Exceptional Services & Software Every Time

## AdvancedWare is Pleased to Present AWFedExInterface for Vantage - \$4,000

The AWFedExInterface product automatically loads from your Vantage system all the information required by FedEx for a shipment. Once you complete the shipment in the FedEx system, all the information such as Shipment Cost, Total Weight, Number of Packages, and Tracking Number(s) are then automatically loaded into your Vantage system. AWFedExInterface streamlines the shipment process and eliminates errors caused by having to maintain redundant customer address information.

Below you can see the flow of the AWFedExInterface process. In one simple step, the information is automatically loaded into the FedEx system and is ready to be processed. Then, with a click of the mouse the information is automatically loaded from FedEx into your Vantage system.

**Sending Shipment Information to FedEx Ship Manager from Vantage.**

**Receiving into Vantage the Shipment Cost, Total Weight, Number of Packages and Tracking Number(s) from FedEx Ship Manager.**

The screenshot shows two windows. The top window is 'Customer Shipment Entry' with fields for Pack ID (226), Order Number, Ship Date (7/7/2019), Ship Via (FedEx Ground), and Ship To/Ship From addresses. The bottom window is 'FedEx Ship Manager' showing recipient information (Country: US, City: Irvine), package details (Number of packages: 1, Weight: 0.1), and billing details (Bill to: AdvancedWare Corporation). Arrows indicate the flow of information from Vantage to FedEx and back.

**Our Turnkey Approach:** For the price of \$4,000, AWFedExInterface includes the combination of products and services needed for your company to be up and running live. We include the installation and setup of AWFedExInterface on your system and full integration to your release of Vantage, even if you have customization.

**The Bottom Line:** With AWFedExInterface, your users will be able to ship directly from your Vantage system using FedEx and capture all the required information in a snap. Best of all, AWFedExInterface provides an unlimited license to run on as many shipping stations as you like.
