

Delivering Exceptional Services & Software Every Time

AWValidateAddress \$3,500

AdvancedWare is Pleased to Present AWValidateAddress for MANAGE 2000 - \$3,500

The AWValidateAddress solution will make sure you always enter a valid customer address into your MANAGE 2000 system.

Save Money – No more costly shipments being returned and having to be re-shipped due to invalid addresses.

Save Time – AWValidateAddress is fully automated with MANAGE 2000 and works in Real-Time. Your users don't need to change anything because "behind the scenes" AWValidateAddress will automatically validate the Customer Addresses entered into MANAGE 2000. If there is any problem with the address entered, the system will not only let the user know but it will also display in the MANAGE 2000 screen, the recommended changes to the address.

Increase Customer Service – With AWValidateAddress, your Customer Service Level will increase because you will no longer have shipments returned, causing delays to your customers. In today's world, customers expect technology like this to get it right the 1st time!

AWValidateAddress works for addresses in the United States and Canada and there is nothing you have to load or maintain because it uses Web Services Technology.

CUSTOMERS - Name, Address and General Information "ADD" Mode

AWValidateAddress automatically determines that this address is not valid due to an incorrect state and informs the user.

**This address is not valid.
Suggested Correction(s): State (CA)**

Our Turnkey Approach: For the price of \$3,500, AWValidateAddress includes everything needed for your company to be up and running live. We include the installation and setup of AWValidateAddress on your system and AWValidateAddress works with any release of MANAGE 2000, even if you have customization.

The Bottom Line: With AWValidateAddress, your MANAGE 2000 Customer Addresses will be right the first time and every time.
